1. Qualitative Information Concerning Quarterly Financial Results

(1) Qualitative information concerning business results

Progress in the Company's business for the first quarter of FY 2013 is as follows:

(i) Domestic

[SyB L-0501 (the generic name: bendamustine hydrochloride, the trade name: TREAKISYM®)]

The Company sells an anticancer drug SyB L-0501 in Japan through the business partner Eisai Co., Ltd. (Eisai) for the indications of refractory/relapsed indolent non-Hodgkin's lymphoma (NHL) and mantle cell lymphoma (MCL).

The Company has been engaged primarily in the following clinical trials with TREAKISYM® for extended indications.

For the Phase II clinical trials (collaborative trial in Japan and South Korea) of refractory/relapsed aggressive non-Hodgkin's lymphoma, although the Company had completed analysis and evaluation of the clinical trial data, we temporarily suspended the application for approval of the product we had planned to make in the previous fiscal year, based on the results of a pre-application meeting with the Pharmaceuticals and Medical Devices Agency (PMDA), and continued discussions with PMDA.

We completed the enrollment of patients in March 2013 for the Phase II clinical trials for the indications of untreated indolent non-Hodgkin's lymphoma and mantle cell lymphoma, as we continuously implemented the Phase II clinical trials for the indication of refractory/relapsed multiple myeloma.

Our notification of the clinical trial plan for domestic Phase II clinical trials for the indication of chronic lymphocytic leukemia was accepted in December 2012, and we made preparations for starting the enrollment of patients for the trials. Furthermore, TREAKISYM® was designated as an orphan drug for the indication of chronic lymphocytic leukemia in June 2012.

Moreover, we received a notice of release from the special drug use results survey, which was a condition for the approval of TREAKISYM®, from the Ministry of Health, Labour and Welfare in March 2013.

[SyB L-1101 (the intravenous form)/C-1101 (the oral form) (the generic name: rigosertib)]

With regard to SyB L-1101 (the intravenous form), an anticancer drug, we worked on the patient enrollment for domestic Phase I clinical trials for the indication of refractory/relapsed myelodysplastic syndrome (MDS).

As for SyB C-1101, the oral form, we started domestic Phase I clinical trials for the indication of untreated MDS with the first patient enrollment conducted in March 2013.

[SyB D-0701]

In January 2013, we completed the Phase II clinical trial of SyB D-0701 (a transdermal antiemetic patch) for the indication of radiotherapy-induced nausea and vomiting. We will conduct detailed analyses of the trial results to investigate the future direction of development.

(ii) Overseas

Sales of SyB L-0501 are performing well. The drug is sold in Taiwan through InnoPharmax Inc. (Taiwan) and in Singapore and South Korea through Eisai (local subsidiaries), as we do in Japan.

(iii) Fund procurement

The Company made a resolution on December 27, 2012 to issue the first unsecured convertible bond with stock acquisition rights (total issue price: 1 billion yen) with Whiz Healthcare PE Series 1 Investment Limited Liability Partnership as the allottee and the 29th warrant (total issue price: 5.1 million yen, total issue price of stocks when issued through exercising the stock acquisition rights: 500 million yen), with the aim of accelerating development of new drug candidates and further reinforcing the pipeline. Accordingly, Whiz Healthcare PE Series 1 Investment Limited Liability Partnership completed payment of 1,005,100 thousand yen to the Company on January 15, 2013.

In January 2013, the 29th series stock option was partially exercised and the total paid-in amount of 199,998 thousand yen has been received.

(iv) Business results

As a result of the aforementioned developments, net sales totaled 489,016 thousand yen (a year-on-year decrease of 15.8%) for the first quarter of the fiscal year ending December 31, 2013, reflecting primarily the sales of SyB L-0501 in Japan and Asian countries.

Selling, general and administrative expenses totaled 492,009 thousand yen (a year-on-year decrease of 19.2%), including research and development (“R&D”) expenses of 277,494 thousand yen (a year-on-year decrease of 23.3%) for the accrual of expenses associated with the clinical trials for multiple indications for SyB L-0501 and clinical trials and preparations for SyB L-1101, among other things, as well as other selling, general and administrative expenses of 214,515 thousand yen (a year-on-year decrease of 13.3%).

As a result, we posted operating loss of 341,025 thousand yen for the first three months ended March 31, 2013 (in contrast to operating loss of 480,647 thousand yen for the same period in the previous fiscal year). In addition, recording of totaling 13,284 thousand yen as non-operating expenses, primarily comprising foreign exchange losses and stock issuance cost, and other factors led to ordinary loss of 352,425 thousand yen (ordinary loss of 515,508 thousand yen for the same period in the previous fiscal year) and net loss of 353,375 thousand yen (net loss of 516,458 thousand yen for the same period in the previous fiscal year).

Furthermore, segment information is omitted since the Company operates a single segment of pharmaceutical business including research and development of pharmaceutical drugs as well as manufacturing, marketing and other related activities.

(2) Qualitative information concerning financial positions

Total assets as of March 31, 2013 stood at 6,376,811 thousand yen, an increase of 874,620 thousand yen from the previous fiscal year end. This was primarily due to an increase of capital stock and capital surplus and the net loss for the three months period.

Total assets stood at 6,376,811 thousand yen, an increase of 874,620 thousand yen from the previous fiscal year end, primarily due to an increase of both cash and deposits of 407,151 thousand yen and marketable securities of 501,937 thousand yen arising from fund procurement.

Total liabilities stood at 610,788 thousand yen (in contrast to 602,232 thousand yen as of the previous fiscal year end)

Net assets increased by 866,065 thousand yen from the previous fiscal year end to 5,766,023 thousand yen since each of capital stock and capital surplus increased by 602,144 thousand yen in spite of a net loss of 353,375 thousand yen. As a result, the equity ratio increased by 1.2 percentage points to 89.8% from the previous fiscal year end.

(3) Qualitative information concerning earnings forecasts

No revision is made to the earnings forecasts for FY 2013 as of the date of this document.
